hereby make application for permission to change the

Point of diversion and manner of use

Point of diversion, manner of use, and/or place of use

of water heretofore appropriated under 54763

Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and

Identify right in Decree.

1. The source of water is underground
Name of stream, lake, underground spring or other source.
2. The amount of water to be changed 5.0 second-feet
Second feet, acre feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for dewatering, mining, milling and domestic
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
4. The water heretofore permitted for mining, milling and domestic
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.
5. The water is to be diverted at the following point NW $\frac{1}{4}$ SE $\frac{1}{4}$ section 11, T34N, R42E, MDB&M WW-11
Describe as being within a 40-acre subdivision of public survey and by course and
distance to a section corner. If on unsurveyed land, it should be stated.
6. The existing permitted point of diversion is located within SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, T34N, R42E, MDB&M,
If point of diversion is not changed, do not answer.
or at a point from which the SE corner of said section 11 bears S 71° 33'11"E a
distance of 2421.75 feet
7. Proposed place of use Same as item 8
Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.
8. Existing place of use Sections 1,2,3,10,11,12,13,14,15,22,23, and 27 T34N, R42E, MDB&M
Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or
and the south half of the NE $\frac{1}{4}$, and the north half of the SE $\frac{1}{4}$, Section 29 T35N,
manner of use of irrigation permit, describe acreage to be removed from irrigation.
R43E MDB&M
9. Use will be from January 1 to December 31 of each year.
Month and Day Month and Day
10. Use was permitted from January 1 to December 31 of each year.
Month and Day Month and Day
11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Well drilled to depth with 20 inch completion,
State manner in which water is to be diverted, i.e. diversion structure.
discharge piping, electric cable, pump and motor equipment
ditches, pipes and flumes, or drilled well, etc.
12. Estimated cost of works \$400,000
13. Estimated time required to construct works 2 years

14. Estimated time required to complete the application of water to beneficial use.....5 years.....

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

This application is for a temporary transfer of 5.0 second-feet of water from
permit 54763 to the NW¼ SE¼ section 11, T34N, R42E, as shown on the attached map.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and manner of use of the waters of an underground source as heretofore granted under Permit 54763 is issued subject to the terms and conditions imposed in said Permit 54763 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed.....5.0.....cubic feet per second , but not to exceed 1024.5
million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be made on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No..... Issued.....

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have herunto set my hand and the seal of my
office, this.....28th.....day of.....May.....

A.D. 19.....93.....

R. Michael Turnipseed
STATE ENGINEER A PORTION BEING 4.1 cfs and 840.09 MGA

EXPIRED
DATE MAY 27 1994

(PERMIT TERMS CONTINUED)

The total combined diversion rate of Permits 54247, 54759, 54760, 54761, 54762, 54763, 54764, 56406, 56407, 56951, 57103, 57104, 57676-T, 57695-T, 58257-T, 58292-T, 58385, 58550, 58601-T, 58602-T, 58831-T, 58832-T, 58833-T and 58834-T shall not exceed 20,000 gallons per minute or 44.56 cubic feet per second and the total volume of water diverted for dewatering, mining or other industrial or stockwatering uses shall not exceed 32,260 acre feet per annum. All water diverted that cannot be placed to a beneficial use shall be injected back to the Pumpnickel Valley and/or Clovers Area groundwater system. The existing surface discharge to the Herrin Slough may continue until May 30, 1993, subject to the permitting requirements of other state, federal and local agencies. Injection of excess water, or substitution for other permitted industrial or mining uses, shall be the only means of disposal after that date. This permit does not relieve the operator of the requirements of other state, federal or local agencies.

All water diverted, used in the mining and milling process and discharged to the slough shall be measured continuously and reported on a monthly basis.

A measuring device approved by the State Engineer as to the type and location, shall be installed at the downstream end of the slough just prior to any of the discharged water entering the Humboldt River. This measurement device shall be installed within 30 days from the issuance of this permit. The measurements shall be on a continuous basis and reduced to daily flows.

The monitoring plan revised November 22, 1991, is hereby adopted with one exception, that being the frequency of water level measurements shall be made and reported on a monthly basis for a period of one year after the issuance of this permit. The monitoring plan will be reviewed at the end of this one year period, to determine if any other modifications are necessary.

All data from the water diverted and used, the measurement of water in the slough and the water level measurements shall be submitted to the State Engineer within 15 days of the last day of the preceding month.

The total combined duty of water under Permits 54247, 54759, 54760, 54761, 54762, 54763, 54764, 56406, 56407, 56951, 57103, 57104, 57676-T, 57695-T, 58257-T, 58292-T, 58385, 58550, 58601-T, 58602-T, 58831-T, 58832-T, 58833-T and 58834-T shall not exceed 3,144 acre-feet annually.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on May 27, 1994 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
